

August 9, 2017

KMG, the Dutch manufacturer of the Fireball attraction that failed at the Ohio State Fair has issued an inspection manual consisting of seven pages. Oaks Park has this ride, The Scream'n Eagle, and will follow this directive during its inspection process.

The testing is extensive.

This inspection will conclude with an inspection by an outside attraction inspection company, insuring that the exacting specifications of KMG have been met.

We hope to have our Scream'n Eagle up and flying by the last week in August.

Thank you,
Mary Beth Coffey, Senior Manager- Oaks Park Association
